

Resolution to Pass Paycheck Protection

Whereas, Pennsylvania law currently allows taxpayer resources to be used to automatically collect public sector union dues; and

Whereas, this collection process benefits a private organization at taxpayer expense; and

Whereas, employees are subjected to forced collection without their personal approval; and

Whereas, unions use these monies to impact the political process through activities and expenditures on behalf of opposition candidates and for self-serving lobbying efforts; and

Whereas, taxpayer resources should not be used for any partisan political purpose; then,

Be it resolved, that SUN Area Council of Republican Women calls on the Pennsylvania legislature to quickly pass Paycheck Protection legislation to protect worker freedom and relieve Commonwealth taxpayers from the burden of supporting public sector unions.
