Resolved that the Pennsylvania Federation of Republican Women confirms its support for the Republican Party position on marriage as articulated in the 2008 Republican Party platform,

**“Because our children’s future is best preserved within the traditional understanding of marriage, we call for a constitutional amendment that fully protects marriage as a union of a man and a woman, so that judges cannot make other arrangements equivalent to it. In the absence of a national amendment, we support the right of the people of the various states to affirm traditional marriage through state initiatives.”**

**“Republicans have been at the forefront of protecting traditional marriage laws, both in the states and in Congress. A Republican Congress enacted the Defense of Marriage Act, affirming the right of states not to recognize same-sex marriages licensed in other states. Unbelievably, the Democratic Party has now pledged to repeal the Defense of Marriage Act, which would subject every state to the redefinition of marriage by a judge without ever allowing the people to vote on the matter. We also urge Congress to use its Article III, Section 2 power to prevent activist federal judges from imposing upon the rest of the nation the judicial activism in Massachusetts and California.”**
